

Most will agree that we need changes to the Amateur Radio Service. It has been said that if "You always do what you always did, you get what you always got." This RM is just that keep the Amateur Radio Service just as it has been for that last 80 years. We need to get rid of a Morse Code Testing requirement and bring Amateur radio into the 21'st Century. Lets move forward into real time.

I have nothing to gain I have been a ham for 30+ years and have an Extra class, I just hope I can help move Amateur radio into the modern age.
